Meeting:

Mr. Melms discussed the purpose of this meeting. Informed the committee that we would be walking through the CIP and doing a Mid Year Review. In addition, Mr. Melms spoke to the committee in regard to next year. Explained that those individuals who remained on the committee would be responsible for updating and revising the CIP for 2022-2023. The committee began to discuss each goal. All goals were either recognized as a "still needs work" or "progressing". Several goals were identified and tagged to be rolled over to next year's CIP. The meeting closed with Mr. Melms charging the committee with coming prepared to the next meeting ready to discuss, and present evidence, on whether goals were met or not.
